Message from CEO/MD

Our GREENEE TEAM at Nature Efficient Electronics Lanka Pvt Ltd counts over three decades of experience in the Lighting industry. We began our journey with design and manufacture of Compact Fluorescent Lamps (CFL) for both local and export market.

With the emerging demand for LED during the year 2012 the company diversified the range of products to LED lights & fittings along with customize products. Since then we have been expanding our operations to a network of retail branches & spread our wings to overseas customers.

We source our material from reputed manufactures associated with OEM for established Lighting brands around the globe. Innovative designs and vast product range motivate us to pursue aggressively in meeting the needs of our customers.

Our state of art product range caters to all domestic & industrial customers to meet their esthetical needs in a professional manner. Our technical team is specialized & committed to assure a prompt customer service.

GREENEE TEAM welcome you to be partner with us for your next LIGHTING ENDEAVOUR and experience the power of GREENEE SOLUTIONS.

LIGHT UP WITH GREENEE TO DISPEL DARKNESS

Concept of SMART LIGHTING

Smart lighting is a lighting technology designed for energy efficiency. This may include high efficiency fixtures and automated controls that make adjustments based on conditions such as occupancy or daylight availability. Smart Lighting is the deliberate application of light to achieve some aesthetic or practical effect.

The market is highly influenced by the increasing concerns for the well being of the environment. With the developing trend of Internet of Things (IoT), it is expected to brighten the development of the lighting market through smart bulbs, LED technology, etc, in indoor and outdoor application.
